

Parsun Outboard Break In Procedure

Your new engine requires a period of breaking to allow mating surfaces of moving parts to wear in evenly.

CAUTION Failure to follow the break-in procedure could result in reduced engine life or even severe engine Damage.

1. for the first hour of operation: Run the engine at 2000 r/min or at approximately half throttle.
2. for the second hour of operation: Run the engine at 3000 r/min or at approximately three-quarter throttle.
3. for the next eight hours of operation: Avoid continuous operation at full throttle for more than five minutes at a time.
4. After 10 hours change oil including gear oil and operate the engine normally.
